As with any service, from time to time there will be problems and we're here to service you. Most questions and problems can be resolved by reading the Frequently Asked Questions (FAQ). If for some reason the FAQ's do not resolve your issue, please contact our Network Operations Center by email ( [noc@browndognetworks.com](mailto:noc@browndognetworks.com) ) and we work to resolve your issue. Email is the most effective way for us to track your issue, but we can also be contacted by phone at 314.531.6500.
